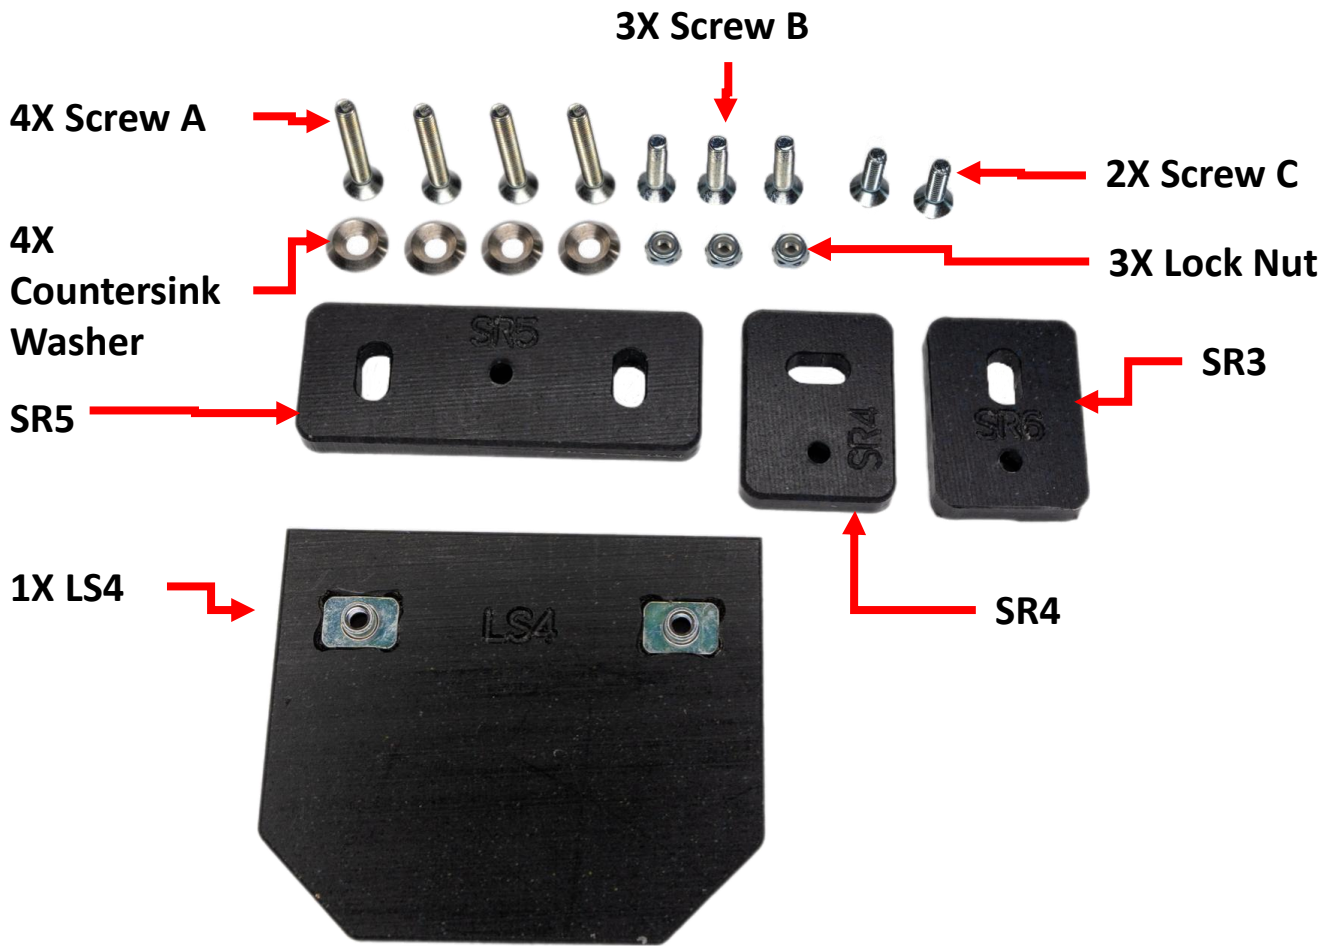
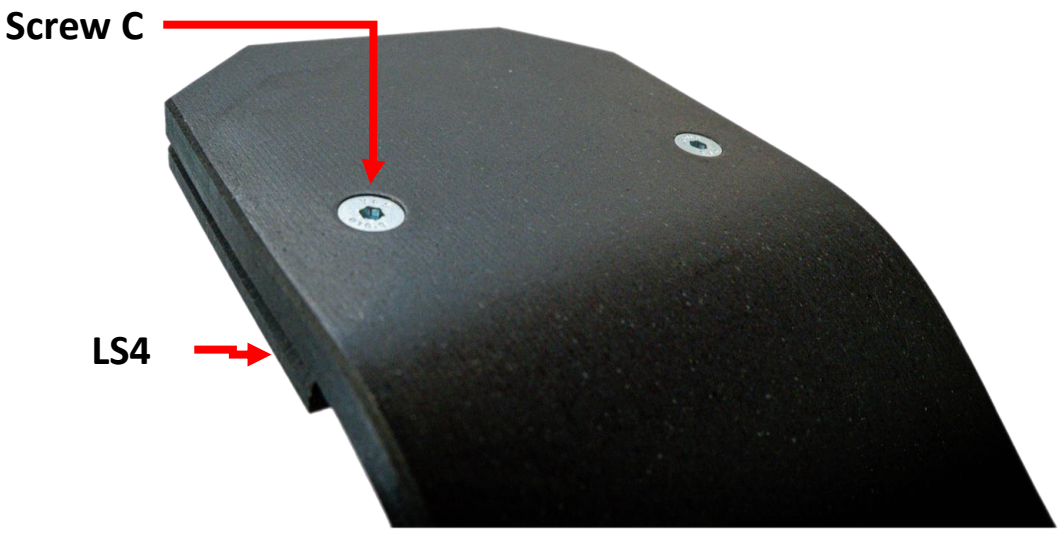
Supplied Hardware:



Molecule Motosports will not be responsible for any damages, loss of revenue, and/or personal injury caused or resulting from the installation of these parts or modifications made during installation.

Step 1: Assemble Linkage Spring

- Attach **LS4** to the rear of the skidplate using **2X Screw C**.
- Tighten till screws are flush with plastic.

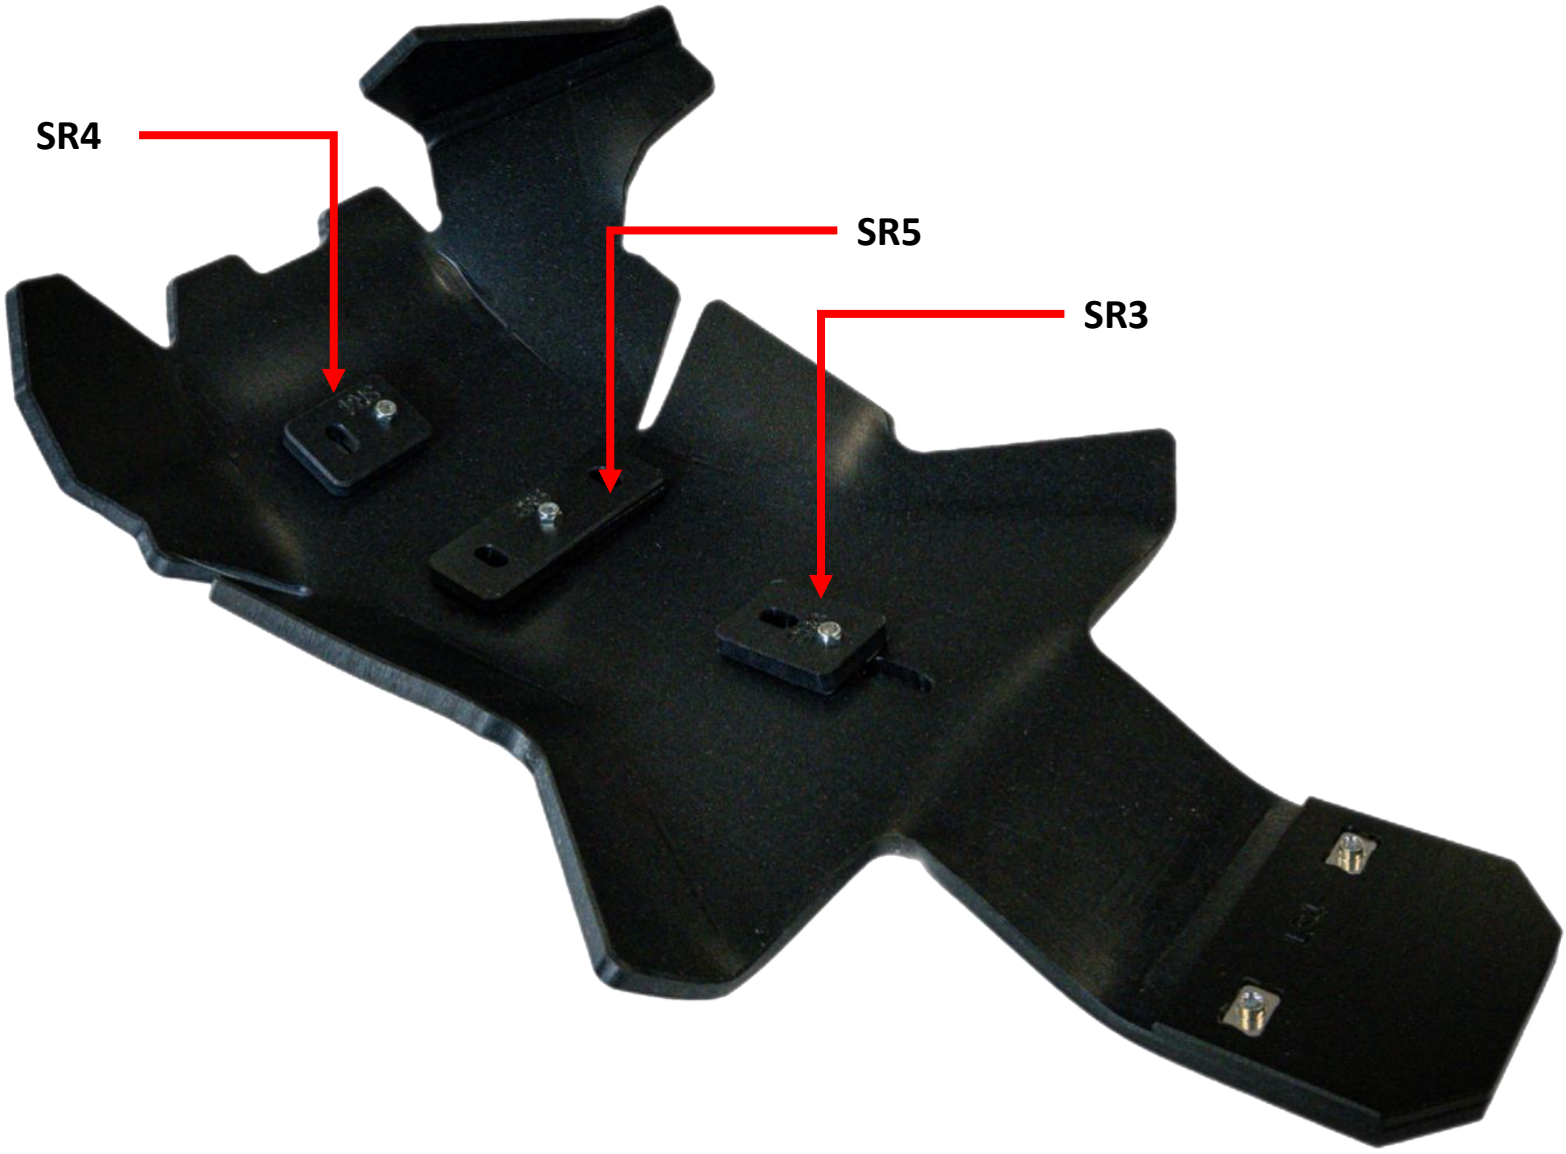


Molecule Motosports will not be responsible for any damages, loss of revenue, and/or personal injury caused or resulting from the installation of these parts or modifications made during installation.

Step 2: Assemble Spacers to Skidplate

- Use **3X of Screw B** and **3X of the Lock Nut** to attach all three spacers (**SR3, SR4 & SR5**) to the skidplate.
- Tighten until the screws are flush with the bottom of the skidplate.

Ensure that the spacers line up with the slots in the skidplate.



Molecule Motosports will not be responsible for any damages, loss of revenue, and/or personal injury caused or resulting from the installation of these parts or modifications made during installation.

Step 2: Continued
